## **THECNICAL SHEET: FSB NERO**

---

### COMPOSITION:

Mix of synthetic fibers (polyester staple).

### FEATURES:

Fiber mat 100% polyester, black color, thermobonding. There are not chemical binders (resins, adhesives, etc.). The product has characteristics of thermo-acoustic insulation.

Ecological product, fully recyclable.

Is identified as a function of weight per unit area (g / sqm), in thickness and type of packaging (plates, coils).

The product falls into Class 1 fire by the classification referred to UNI 9177 (1987), is also classified in Class 1A according to the classification under the Standard SS UNI E 10.02.977.3 December 2001 App. B

### THICKNESS:

Ranging from 10 to 100 mm

### Weight:

Varying from 500 to 1600 g / sqm

### PACKING:

- Rolls of heights ranging from 60 to 240 cm, wrapped in polyethylene film
- Plates in packs heat
- die-cut cartons and pallets regettati

### APPLICATIONS AND finish:

The product can be made self adhesive applying adhesives specific (eg, Hot-Melt). Can be coupled with non woven fabrics and liners of various types (paper, polyethylene, aluminum, etc.).

### AREAS OF USE:

- Automotive
  - Appliances
-
